

AVOLT

**“ Architects always plan for built in sockets, but once people start to use a space, extra sockets are always needed ”**

**Square was designed on the belief that commodity electronics should be aesthetic, beautiful and functional without compromising architectural design.**

**Awarded for design and  
sustainability**

red dot design award  
winner 2019

**Square is made with 20 %  
recycled plastic materials**

**Square can be attached on  
to a wall or under a table**

**X2 USB ports enable you to charge  
your devices fast and convenient**
